5+ years building fintech products, from React interfaces to TypeScript GraphQL services on AWS. Focused on payment integrations, maintainable systems, and measurable improvements to developer productivity and production reliability.

EXPERIENCE

Zeller

Melbourne, Australia

Senior Software Engineer — Jul 2025 - Present

Software Engineer — Jul 2021 - Jul 2025

- Saved an estimated **1,500+ hours annually** through CI/CD improvements, cutting PR builds by 20 minutes, Nx linting by 6 minutes, and system tests by 10 minutes per execution.
- Led a **5,000+ file Nx migration** without disrupting delivery. Separately removed **100,000 lines of duplicated code**, improving maintainability and language-server usability.
- Built core **multi-entity management** workflows; used proofs of concept to validate design assumptions and uncover 6+ hidden issues before launch.
- Improved **crash-free sessions from 94% to 99.87%** and users from 74% to 98.89% by resolving 25+ Sentry errors; reduced unhandled errors from 120+ to single digits.
- Developed or owned **3DS card-not-present payments**, Sardine integration, and payment integrations with Xero, Oracle POS, Impos, and Tevalis.
- Contributed **GraphQL contracts and role-based permissions** to the TypeScript BFF; implemented SQL migrations, data-model changes, and tested event projections for reporting configuration.
